

Campus Personalities

by GEORGE REISCHUCK

Last week at this time the students of both colleges and their guests were enjoying the festivities of our 26th Annual Ice Carnival. We now would like to congratulate the Carnival's business manager, Dick Ashcroft, for his work in making this years Carnival one of the biggest on record.

Our personality is a graduate of Utica Free Academy in Utica, New York, where he played Varsity football, participated in the dramatics club and was a member of the Science Club. He also was chosen for the National Honor Society because of his high scholastic average.

DICK ASHCROFT

Entering Clarkson in the fall of '52, Dick enrolled in the school of engineering to pursue Electrical Engineering. Among his many activities of that year were the Freshmen Class Council, on the Integrator Staff, an announcer for WNTC and the secretary-treasure of the Polygon Club. He was also in the Newman Club, the Clarkson Guard, on the Ice Carnival Ticket Committee and he also began pledging Lambda Iota fraternity.

When Dick entered his sophomore year here, he was the Exchange Editor of the Integrator, became a member of Lambda Iota and the Personal Manager of WNTC. We also found him as the secretary-treasure of the Polygon Club, on the Lewis House Calendar Committee and in the Clarkson Guard.

His junior year proved to be a busy one here as he was Production Editor of the Integrator and both station manager and director of operations of WNTC and in addition Dick was a chairman of the Lewis House Calendar Committee. He was also chairman of the toy drive for the underprivileged children of Potsdam sponsored by the Clarkson Guard, vice president of the Newman Club, a co-chairmen of the Ice Carnival Ticket committee and was appointed to Pi Delta Epsilon.

At the present we find him as the production editor of the Integrator, in the Clarkson Guard and the secretary of Pi Delta Epsilon. He was the business manager of "Disneyland in Snow." Last fall he served as chairman of the Region 2, Association of College Unions Conference, held here in Potsdam.

We again would like to congratulate Dick for the work he has done here at Clarkson. On behalf of the student body we of the Integrator staff hope that he will be extremely successful in the years following his graduation.
